House Staff Policies & Procedures

As an institution, Stanford Health Care is dedicated to the training of this nation’s future leaders in the scholarly practice of clinical medicine and biomedical research.

The educational objectives of its residencies are:

1. To provide excellent clinical education
2. To provide opportunities to explore research and teaching
3. To teach the necessary skills to sustain a lifetime of learning
4. To encourage lifelong ethical and moral behavior in the practice of medicine and in the conduct of research
5. To assure development of effective skills in communicating with patients, colleagues, and the public, and to ensure the humane and caring practice of medicine

If you have any questions regarding the GME Policies and Procedures, please contact us.

Welcome

Stanford University Medical Center understands the stresses of residency. To help residents succeed, we created the Office of Housestaff Administration in the early 1980's. In 2004, we became the Department of Graduate Medical Education. This change in title reflects our dedication to program quality, but does not diminish our commitment to you as individuals.

The operations side of the office handles hiring, payroll, verification of training for student loans, licensure, changes in benefits status, credentialing, meal tickets, reimbursements, and oversight of the on-call facilities. The education side of the office conducts internal reviews and provides consulting services to program directors on accreditation, curriculum, the core competencies, and evaluation.

We are available to assist you with physician licensure, housing, or general questions on relocating/living in the Palo Alto area. Notary services are available to interns and residents for CA medical licensure and USMLE.

Please feel free to seek us out in the coming months and years. We have a variety of resources available to you and your families. No problem is too small to deserve consideration. Many of your concerns have simple solutions and sometimes it’s just nice to hear about your lives.

Leadership Team

NORMAN RIZK, MD
Senior Associate Dean for Clinical Affairs
Chief Medical Officer, Stanford Health Care

ANN DOHN, MA
Director, Graduate Medical Education
Designated Institutional Official (DIO), ACGME
Training Program Liaison, BCPMG
Special Programs Coordinator, Medical Board of California

LAURENCE KATZNELSON, MD
