

Feature Box Component

Description of Component

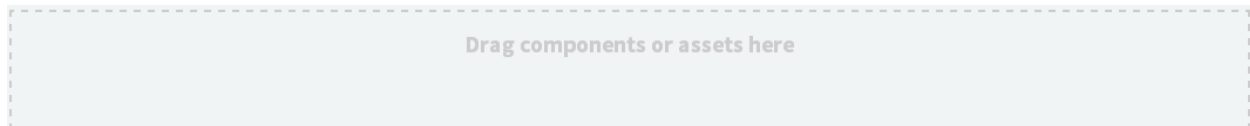

The Feature Box component is used to feature content prominently on your website. You can have an image with a bold caption box, and an icon along with rich text. These can be used with Flip Panels to add depth to your website.

How to Use the Component

1. You can identify the Feature Box component in the Web Author toolkit as follows:

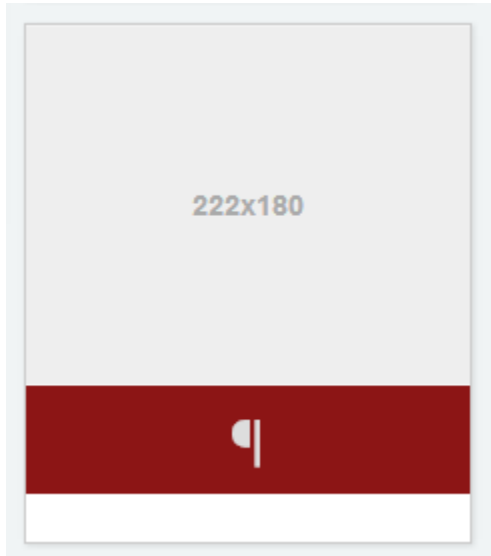

1. Drag the component onto the page in the place where you want the text to display.

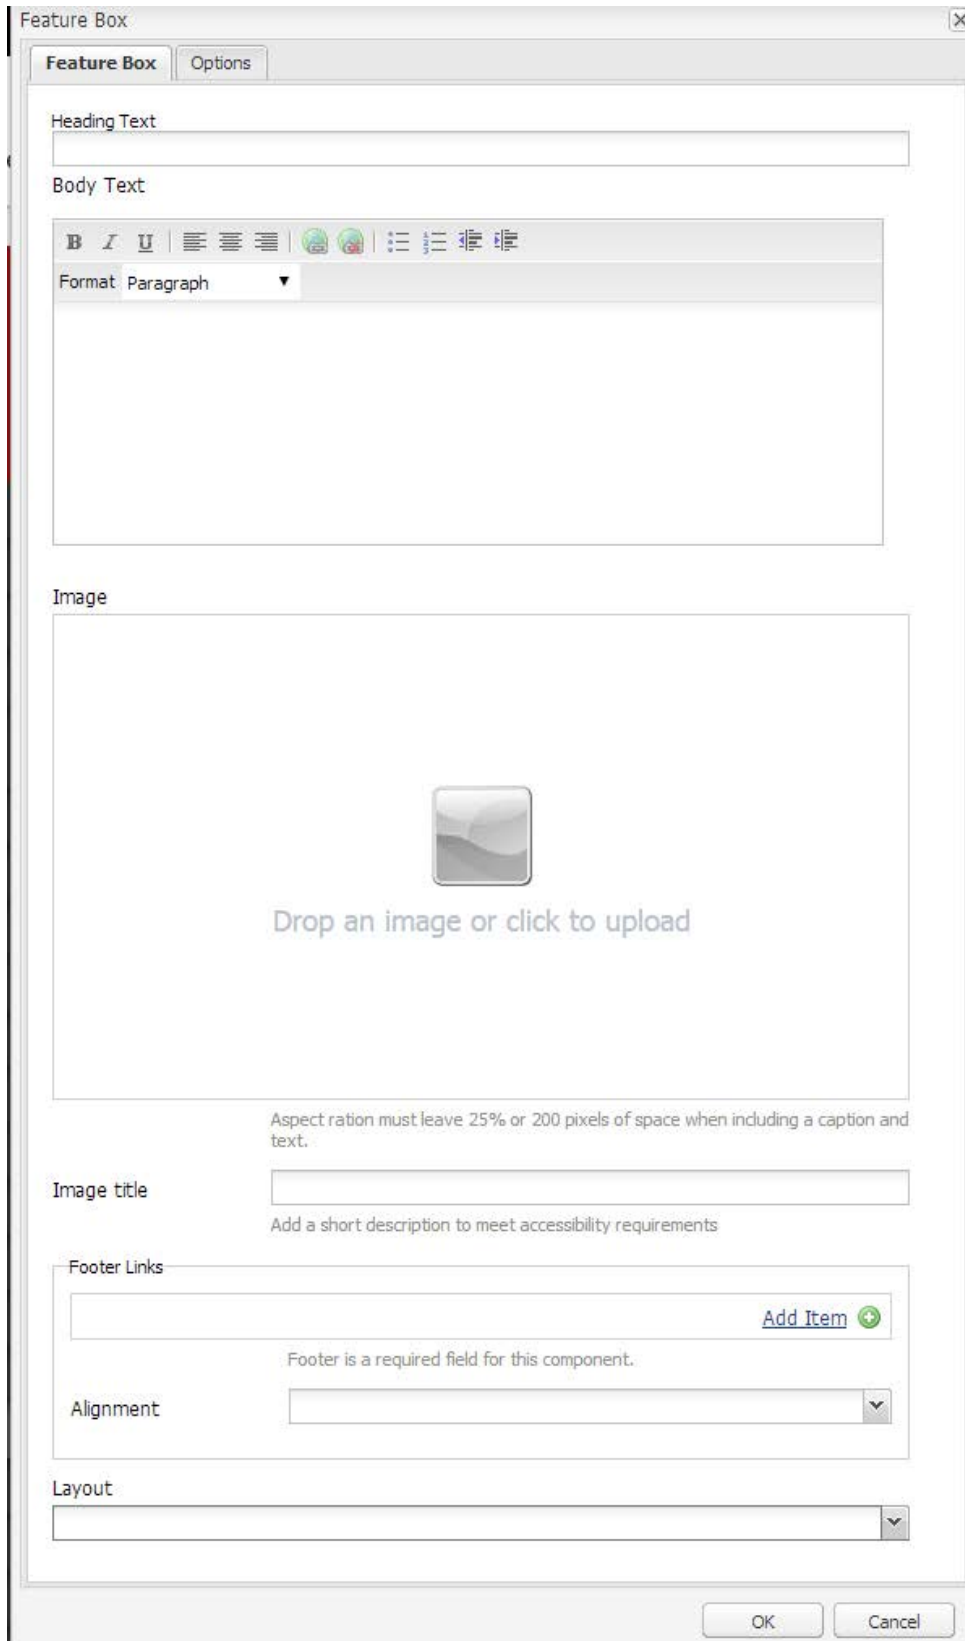

2. Or, right click and select New.

3. The Feature Box opens automatically to edit. If not edited, it defaults to look similar to the following:

4. The dialog when opened displays the following fields:

Feature Box

Feature Box Options

Heading Text

Body Text

B *I* U |     |   |   |   |    

Format Paragraph ▼

13. You can click OK to save the changes or to add options, click on the Options tab.

The screenshot shows a dialog box titled "Feature Box" with two tabs: "Feature Box" and "Options". The "Options" tab is selected. It contains three settings:

- Heading Color:** A dropdown menu currently showing "Default". Below it is a note: "You can change the color of the heading if the template allows you to do so as some designs require a specific font color for standardization."
- Icon:** A dropdown menu that is currently empty. Below it is a note: "Choose an icon to display to highlight the content of this feature box."
- Fixed height:** A text input field that is currently empty. Below it is a note: "Enter the number of pixels to use for a fixed height. Leave blank for auto height"

At the bottom right of the dialog box are two buttons: "OK" and "Cancel".

14. Click the dropdown to change the Heading Color.

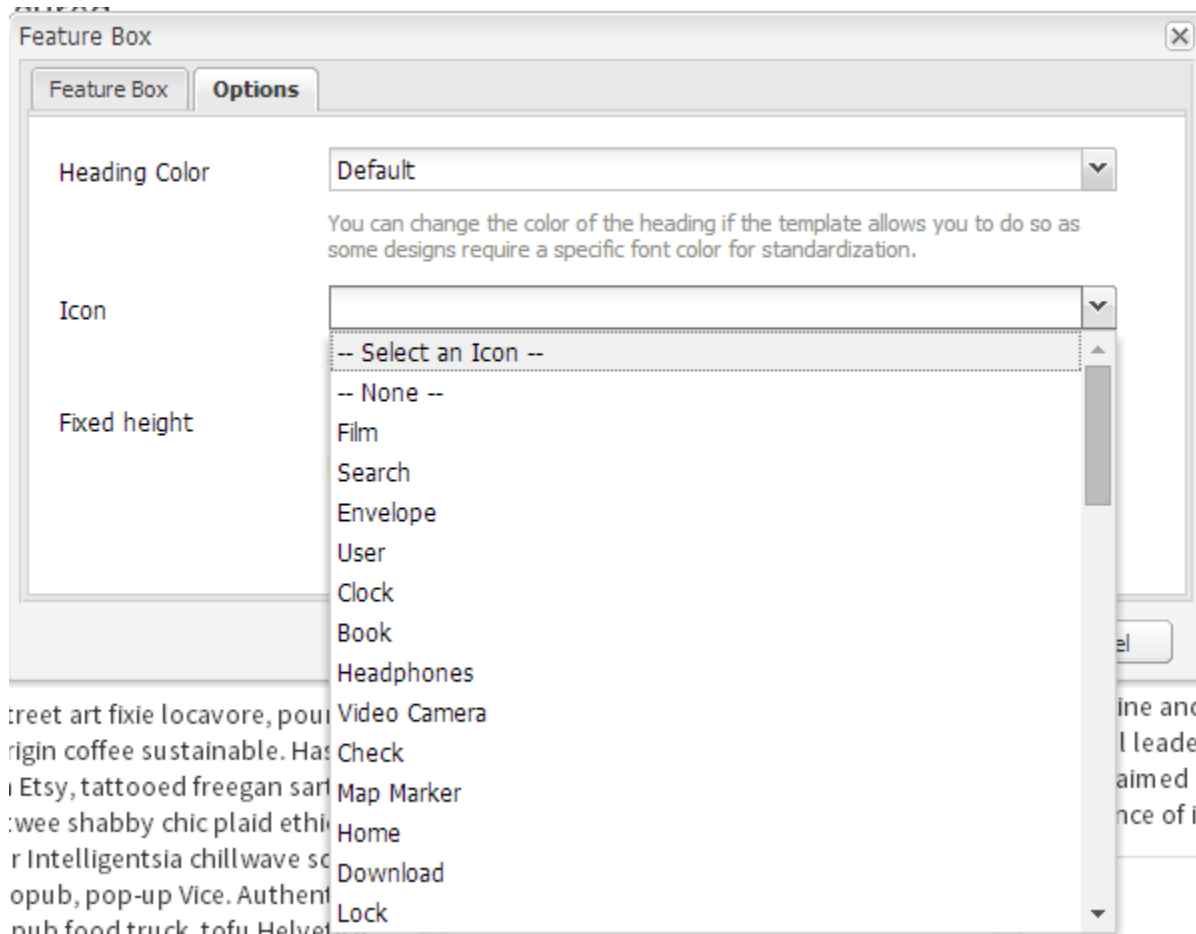

This screenshot shows the same "Feature Box" dialog box, but the "Heading Color" dropdown menu is open, displaying a list of options:

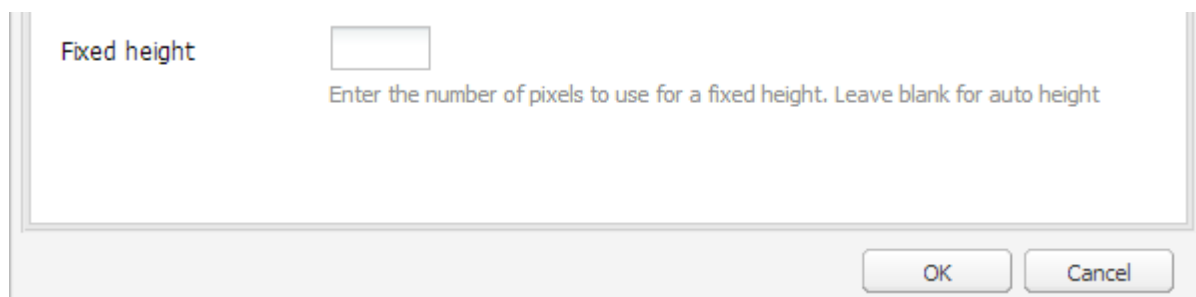

- Default
- Dark Grey
- Stanford Red

The "Icon" dropdown menu is also visible and appears to be empty.

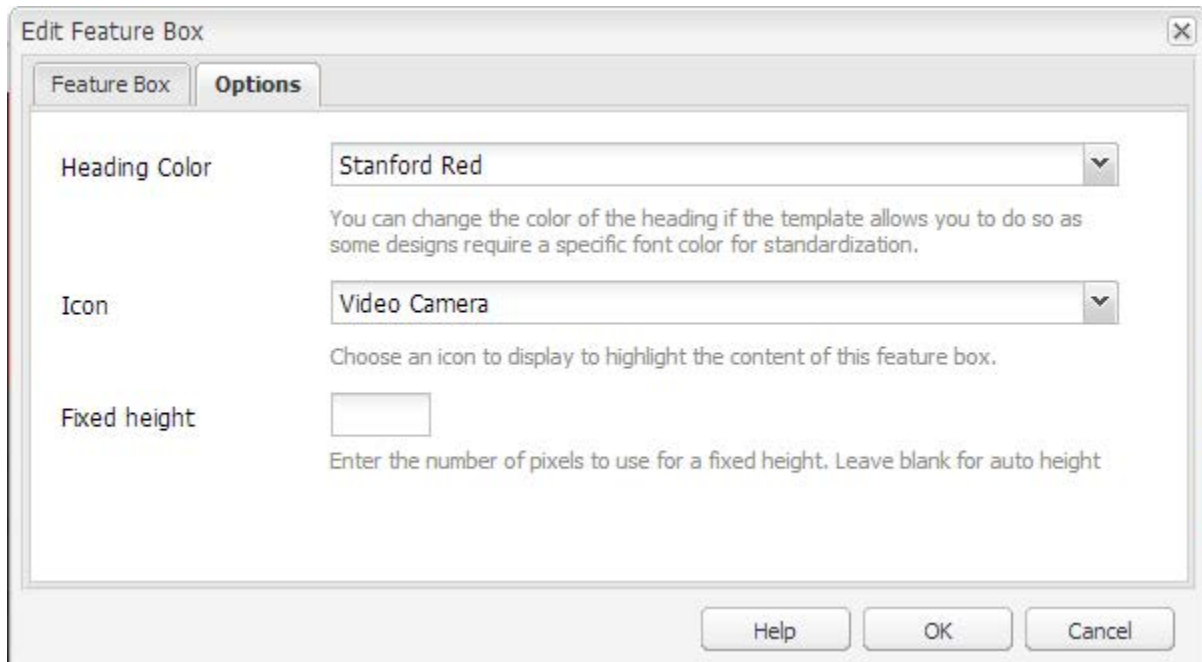

15. Choose an icon to display from the dropdown to display below the image and above the heading.

16. In most cases leave the Fixed height field blank to allow auto height adjustment.

An example of results

The screenshot shows a dialog box titled "Edit Feature Box" with a close button (X) in the top right corner. It has two tabs: "Feature Box" and "Options", with "Options" selected. The "Options" tab contains three settings:

- Heading Color:** A dropdown menu set to "Stanford Red". Below it is a note: "You can change the color of the heading if the template allows you to do so as some designs require a specific font color for standardization."
- Icon:** A dropdown menu set to "Video Camera". Below it is a note: "Choose an icon to display to highlight the content of this feature box."
- Fixed height:** An empty text input field. Below it is a note: "Enter the number of pixels to use for a fixed height. Leave blank for auto height"

At the bottom of the dialog box are three buttons: "Help", "OK", and "Cancel".

17. Click OK to save changes and display on the web page.
